David,

The U.S. Environmental Protection Agency has completed its review and approves the above referenced tissue sampling and analysis plan dated March 25, 2016, for the San Jacinto River Waste Pits Superfund Site. As we discussed, the field work for sample collection will begin no later than the week of April 18, 2016. We will followup-up this email with a letter. Please let me know if you have any questions on this.

Regards,

Gary Miller
